I could gain an advantage in trade competition through this submission

No

The specific provisions of the proposed Plan Change that my submission relates to are as follows

All provisions

My submission is that

The Council have failed to consult with the community. The documentation provided is extremely hard to understand. It seems to be creating zones specifically for development and allowing different rules to apply. I am concerned on the impact these changes will have on the roads and the increased traffic generated, noise and light pollution, destruction of native bush and water run off.

I seek the following decision from the local authority

I want the Council to consult with the community and create new documentation outlining the proposed objectives, policies, and rules that are being proposed and tailored for each zone so that I can clearly understand the environmental and economic ramifications of this proposed plan change on my property and the surrounding area in which I live.
