DETAILS OF SUBMISSION

The specific provisions of the proposed Plan Change that my submission relates to are as follows:

The flood maps are clearly wrong; the way the PC 42 maps represent hazard is completely misleading and inadequate. GWRC & UHCC have consistently avoided addressing legitimate concerns of residents and submitters to push through flood maps that will allow extensive development on Cuildford land. inflated

My submission is that:

GWRC's flood maps for Pinehaven Stream and Mangaroa River lack quality data and credibility. UHCC must not adopt GWRC's flood maps into the District Plan until the community is satisfied that residents concerns have been properly addressed.

(Please state in summary the nature of your submission. Clearly indicate whether you support or oppose the specific provisions or wish to have amendments made, giving reasons. Please use additional sheets if necessary)

I seek the following decision from the local authority:

To withdraw Plan Change 42
To engage a truly independent auditor to investigate the impact of future development on Cuildford land on flooding
To not accept GWRC flood maps until the community's concerns have been properly addressed.

(Please give precise details and use additional sheets if necessary)
